### COMMENTS TO AUTHORS

In the review article of Ayman Zaki Azzam the role of liver transplantation is discussed in the management of HCC. The topic of the manuscript is relevant. The review is well written and focuses on the topic, the used references are up-to-date. The format of the manuscript is needing revision: the title page does not contain author information, affiliation, correspondence. Core tip and keywords are missing, as well. English language needs minor polishing. After minor revision I suggest to accept the manuscript for publication in WJH.
