### COMMENTS TO AUTHORS

Dear Authors, The review article by Neel Malhotra and Melanie Beaton entitled 'Management of NAFLD in 2015' is well written, precise and very informative. However, since there is definite therapy for NAFLD, I would suggest to include a paragraph on the potentials of alternate therapies. There are several reports on the effects of herbal compounds like Lycii fructus and green tea to cure NAFLD. Thank you,

## COMMENTS TO AUTHORS

The manuscript is simple. The author should provide concrete values with the references. For non-alcoholic steatohepatitis, there is no acceptable biomarker that led to continued reliance on liver biopsy for assessment of efficacy, but histological confirmation can be difficult. So, we propose that these trial dates should be investigated by Meta analysis.
