## COMMENTS TO AUTHORS

The manuscript addresses a fully comprehensive review of the many recent different advances in the diagnosis and treatment of hepatorenal syndrome (HRS). This areas of research were interest, and writing was reasonable. he contents meet the mission of the World Journal of Hepatology. However, there were some small writing mistakes that should be corrected before being published. For example, letters "p" in p value should be capitalized (e.g. replace  $p < 0.001$  with  $P < 0.001$ ).

## COMMENTS TO AUTHORS

1. This article is an interesting review and well-written. 2. Please check the abbreviations (NGAL, SIRS, TIPS in abstract, PRA in urinary biomarkers in AKI, etc). 3. Please add the role of duplex Doppler ultrasonography in the diagnosis of renal dysfunction and hepatorenal syndrome.
