## COMMENTS TO AUTHORS

Reviewer report Manuscript number: 20150527234040 Title: Proton pump inhibitor prescription abuse and sepsis in cirrhosis The review deals with an important issue that is the use of proton pump inhibitors for upper gastrointestinal bleeding in cirrhotic patients and the risk of infection due to them. The review is concise and well written. Several sentences are too long for the reader to follow and the authors are advised to rewrite these. Some typing mistakes require corrections eg., "A class of ordinarily well tolerated drug"...should be "As a class of ordinarily well tolerated drug"
