COMMENTS TO AUTHORS

The manuscript entitled "Neuroimaging the Brain-Gut Axis in Patients with Irritable Bowel Syndrome" (Manuscript NO: 00053244) by Kristen et al. In this manuscript, the authors summarize and synthesize current literatures on Neuroimaging the Brain-Gut Axis in patients with Irritable bowel syndrome (IBS). This provided a deep insight into the physiological differences that distinguish patients with IBS from a healthy population. Thus, I recommend that this manuscript can be accepted, although the unpublished paper was not included to analyze may result in a publication bias.
