SPECIFIC COMMENTS TO AUTHORS

1 Title. The strong part of the study id the comparison between radiology resident and pediatric radiologist.The title should reflect this. 2 Abstract. "Ultrasound training may be easily imparted to healthcare workers other than radiologists, such as physicians in the NICU." this sentence is a further inference whic is not supported by the findings. Please revise. 3 Key words. Appropriate 4 Background. Appropriate 5 Methods. I cannot understand why the patients with "had prior CT Brain or MRI brain imaging " was excluded, please explain. 6 Results. Appropriate 7 Discussion. The second and the third paragraphs are pertinent and unnecessaryi they can be omitted. The conclusion is not related with the findings, it mentions about pediatricians. Please revise. As an addition tot he limitation section, the findings was not confirmed with a gold standart test such as MRI, the study only assess the interobserver variability. 8 Illustrations and tables. Figures are unnecessarily large, the useless parts should be cut from the margins. 9 Biostatistics. Appropriate 10 Units. Appropriate 11 References. Appropriate 12 Quality of manuscript organization and presentation. Appropriate 13 Research methods and reporting. Appropriate 14 Ethics statements. Appropriate
