		<input checked="" type="checkbox"/> No	

COMMENTS TO AUTHORS

The study is well-performed and the results are interesting. Comments of this reviewer are: Introduction: provide HIFU explanation of the abbreviation. Methods: If I understand well from figure 2, in all animals you performed one single sonication of 3000J at the upper (or proximal) pole of the right kidney and one single sonication of 4400J at the lower (or distal) pole of the right kidney and double sonications at the respective poles of the left kidney. Please clarify Tables: provide explanations of the abbreviations in the footnotes.
