COMMENTS TO AUTHORS

This minireview by Yu L and Xu Y aims at presenting state-of-the-art knowledge on the mechanism of epigenetic regulation in pathogenesis cardiac fibrosis. This manuscript was well-written. However, there were some typos and inconsistency needing to be fixed. 1. In introduction, page 3, line 8, it may be better to use the word, ubiquitination. 2. Page 10, para 3, line 1, cardiac should be "cardiac". 3. Please carefully revise the section of References.
