COMMENTS TO AUTHORS

General Comments This review describes an overview of pulmonary hypertension in hereditary hemorrhagic telangiectasia (HHT). PH is a serious disease with high mortality. However, it is not well known that the genesis of PH is attributed to HHT. The authors review the association between the two including pathogenesis and pathophysiology. They also explain diagnosis and treatment for this disease. They show Figures and Tables for readers to easily understand PH in HHT. This review is well written.

COMMENTS TO AUTHORS

This is an excellent review on pulmonary hypertension in hereditary haemorrhagic telangiectasia. Minor language polishing is required.
