COMMENTS TO AUTHORS

Congratulation for successful resuscitation without neurologic complications. This is a well written paper. I agree with your opinion of role of ECLS for sudden cardiac arrest.

COMMENTS TO AUTHORS

The authors reported the case of a patient with anomalous origin of right coronary artery, successful saved from cardiac arrest. There are other cases in literature, that described the use of ECLS as support in cardiac arrest and this case further attest the utility of this support. We congratulate the authors for this well described case.
