

PEER-REVIEW REPORT

Name of journal: World Journal of Cardiology

Manuscript NO: 33530

Title: Geometric Comparison of the Mitral and Tricuspid Valve Annulus: Insights from Three Dimensional Transesophageal Echocardiography

Reviewer's code: 00506252

Reviewer's country: Japan

Science editor: Xiu-Xia Song

Date sent for review: 2017-03-13

Date reviewed: 2017-03-18

COMMENTS TO AUTHORS

1. The data obtained in this study are interesting. However, the results should be shown in Table although the data are repeated. 2. Data appear to be shown as Means +/- SD. Please indicate it. 3. "The circumference (p=0.23) of the MVA was 127.9 ± 16.8 mm and 125.92 ± 16.12 mm for the TVA." ----> "The circumference (p=0.23) of the MVA was 127.9 ± 16.8 mm and 125.9 ± 16.1mm for the TVA." 4. "The AIPm / AP ratio (p<0.001) for the MVA was 1.08 ± 0.33 and 1.09 ± 0.28 for the TVA." The difference is very small. Is it true that there is a statistical significance? Minor comments Title page: Medicine--->Medicine; Univerity--->University
