1.How was the patient diagnosed with T-cell ALL? Give me some evidence in some laboratory pictures. 2.Please delete "This contemporary treatment technique may offer a viable management modality and may be incorporated into treatment of patients with leukemic infiltration of the breasts with T-ALL. Further study is needed for optimal management of this very rare entity." - and please write what is your TAKE HOME MESSAGE for

The type of systemic chemotherapy the patient had received prior to hematopoietic stem cell transplantation should be mentioned as it could be relevant to the ALL cells' infiltration in the breast. The sentence "Involvement of the breast by leukemia..." should be expressed differently possibly "Infiltration of the breast by leukemic cells...". "Polimerase chain reaction analysis..." polymerase instead of polimerase. "...at moderate deep inspiation during treatment..." inspiration instead of inspiration.
