The title reflects the subject of the case report. This manuscript presents a clear and clinically useful message. It is well written in terms of clarity, style, and use of English language. Case presentation is sufficiently detailed. The discussion section explains adequately the purpose of this article in the context of published information. The conclusions accurately and clearly explain the main results. The figure as well as the table are of good quality and relevant to the subject. The length of the manuscript is ideal. All references are appropriate and current.

This manuscript is a nice case report. Authors present an interesting, very rare and unique case of clear cell renal cell carcinoma patient with isolated retroperitoneal lymph node metastasis without any evidence of primary tumor in kidneys. It may be the first case in this topic. Discussion is satisfactory. This case report is worth publishing. I recommend only adding a PET/CT image to this report, if it is available.
