COMMENTS TO AUTHORS

It is a good revision. I think that the abstract should not include references to or authors names. The introduction is very long, the description of clinical forms of psoriasis is redundant. I would leave out the tables and the figures.

COMMENTS TO AUTHORS

The revision is of good quality, complete and adequately up-to-date. The "Core Tip" section is missing. Minor language polishing is necessary. Figure 1 is of poor quality and should be deleted or replaced with a better one.

COMMENTS TO AUTHORS

It is a very good revision. I liked the table, the figures and the paper as a whole. There are minor language mistakes to be corrected.
