COMMENTS TO AUTHORS

The manuscript mentions about the oral lichenoid lesions and their potential causative agents. Although there are several review articles about oral lichenoid lesions, the current references in this manuscript can contribute to the literature.

COMMENTS TO AUTHORS

Title: Oral lichenoid lesion: a review of the literature The purpose of this paper is review about OLL related to the dental materials, drug use and GVHD the article well written, clear, and easy for a non-specialist The type of analysis the writer performs is anecdotal . The researcher should also explain how the design (Criteria for the selection of research) . Research design is the plan that is chosen to answer the research question. The manuscript doesnt reveal any new information,simple size is too small There is no new message given through this manuscript

COMMENTS TO AUTHORS

MINOR POINTS: In the Introduction section, the autor say: "These lesions occurs generally in oral mucosa of adul[5], " Plase change "adul", the correct form is adult. In the "Oral lichenoid lesion to the dental materials" section, please change "According to Norway" to "Lygre el al (2003. In the "Oral lichenoid lesion to the drug" section, the authors say: " Grossmann et al., 2008[33]" Please have to be consistent in the citation and put the year in brackets, (2008).
