

## PEER-REVIEW REPORT

**Name of journal:** *World Journal of Clinical Pediatrics*

**Manuscript NO:** 68547

**Title:** Druggable monogenic immune defects hidden in diverse medical specialties: focus on overlap syndromes.

**Reviewer's code:** 02569794

**Position:** Editorial Board

**Academic degree:** MD, PhD

**Professional title:** Associate Professor

**Reviewer's Country/Territory:** Thailand

**Author's Country/Territory:** Italy

**Manuscript submission date:** 2021-05-26

**Reviewer chosen by:** AI Technique

**Reviewer accepted review:** 2021-06-16 07:33

**Reviewer performed review:** 2021-06-26 07:01

**Review time:** 9 Days and 23 Hours

<b>Scientific quality</b>	<input type="checkbox"/> Grade A: Excellent <input checked="" type="checkbox"/> Grade B: Very good <input type="checkbox"/> Grade C: Good <input type="checkbox"/> Grade D: Fair <input type="checkbox"/> Grade E: Do not publish
<b>Language quality</b>	<input checked="" type="checkbox"/> Grade A: Priority publishing <input type="checkbox"/> Grade B: Minor language polishing <input type="checkbox"/> Grade C: A great deal of language polishing <input type="checkbox"/> Grade D: Rejection
<b>Conclusion</b>	<input type="checkbox"/> Accept (High priority) <input checked="" type="checkbox"/> Accept (General priority) <input type="checkbox"/> Minor revision <input type="checkbox"/> Major revision <input type="checkbox"/> Rejection
<b>Re-review</b>	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
<b>Peer-reviewer statements</b>	Peer-Review: <input checked="" type="checkbox"/> Anonymous <input type="checkbox"/> Onymous Conflicts-of-Interest: <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No

#### **SPECIFIC COMMENTS TO AUTHORS**

This manuscript is well written and gather in a brief and informative groups of manifestations as well as organ/system disorders resulting from monogenic immune defects. Would it be more applicable in clinical practise if the manuscript also includes a brief information on initial investigation/approach should any particular disorder is suspected by clinicians? A simplified diagram as a suggestion with well established references will do.
