SPECIFIC COMMENTS TO AUTHORS

It is an interesting manuscript. But Authors cannot succeed to present their idea in a clear way adding information to the existing literature. What are the original findings of this manuscript? It is suggested that the article should be supplemented with diagrams and tables for clarity.

SPECIFIC COMMENTS TO AUTHORS

This editorial is very helpful for the understanding the cow milk associated GI disorders. Only some minor grammar and typing errors need to be revised. If the role of microbiota in the interplay between cow milk and GI is established and discussed, it will be great.
