COMMENTS TO AUTHORS

Hideaki Ito and Osamu Yokoyama present a review on metabolic syndrome and lower urinary tract symptoms. The review is interesting and well-written. Nevertheless, I propose a revision of the references included in the manuscript. In particular, the authors should cite some recent articles on the treated topic (e.g.: Zhang X et al. Impact of Metabolic Syndrome on Benign Prostatic Hyperplasia in Elderly Chinese Men. *Urol Int.* 2014 May 22; Pan JG et al. Relationship between lower urinary tract symptoms and metabolic syndrome in a Chinese male population. *J Endocrinol Invest.* 2014 Jan 9; Gacci M et al. Metabolic syndrome and lower urinary tract symptoms: the role of inflammation. *Prostate Cancer Prostatic Dis.* 2013 16(1):101-6).
