### COMMENTS TO AUTHORS

Dear Editor: I have read with interest the manuscript entitled " Operative Indications of Follicular Type Tumors, Based on Japanese Clinical Guidelines" by Takeyama and coworkers. This is a very interested topic for the readers of WJSP. It shows the guidelines of the Japanese Society of Endocrine Surgery. The manuscript can be published after minor modifications. Minors modifications: 1. It will be more interesting if the authors show the results in a table. 2. The conclusion has to be rewritten. 3. It has to be edited by an English native speaker for better flow.
