COMMENTS TO AUTHORS

Mehta and Ibsen. Neurologic Complications and Neurodevelopmental Outcome with Extracorporeal Life Support. I found this review article both interesting and well written.

COMMENTS TO AUTHORS

The authors, Drs. Mehta and Ibsen, described a review of extracorporeal life support, especially neurologic complications and outcome. The review has been well documented and would be worth publishing after the minor correction below. Page 5, line 19 >intropic support [13] The term, inotropic support, should be correct.
