COMMENTS TO AUTHORS

The contents of the manuscript are very well summarized, and provide useful information to the readers. Very minor comment; if they can add a figure explaining the role of Neuregulin-1/ErbB Signaling in myocardium, it would be more helpful for the readers.

COMMENTS TO AUTHORS

The manuscript is new and interesting with the comments about some markers;

The authors show the vision about the relation between NRG-1/ErbB signaling and heart development and function.
