SPECIFIC COMMENTS TO AUTHORS

Suicide ideation is better if suicidal ideation. After abbreviation, this does no more matter. In Introduction, it is presented correctly. In Abstract, CTQ, PA, EA, SA, PN and EN are not abbreviated first. Please abbreviate. MATERIEL AND METHODS put as MATERIALS AND METHODS. In Participants, 4) Refuse to participate turn to 4) Refused to participate. In Measures, The quality of the finished questionnaire will be checked on the site immediately... should be The quality of the finished questionnaire was checked on the site immediately... In Perceived Social Support, The Cronbach's α of CASSS should be either Cronbach's α of CASSS or The Cronbach α of CASSS. The same problem exists in Depression and Anxiety. In Discussion, why didn't you cite Janiri D, De Rossi P, Kotzalidis GD, Girardi P, Koukopoulos AE, Reginaldi D, Dotto F, Manfredi G, Jollant F, Gorwood P, Pompili M, Sani G. Psychopathological characteristics and adverse childhood events are differentially associated with suicidal ideation and suicidal acts in mood disorders. *Eur Psychiatry*. 2018;53:31-36. doi: 10.1016/j.eurpsy.2018.05.009. Epub 2018 Jun 4? You should also discuss a limitation, i.e., you did not investigate the source of abuse/neglect in your sample. One might wonder how is it possible that an abusing parent could offer at years of distance an effective parental support. Also, put a paragraph to specify what is mediation and in what it differs from moderation. Better if in Introduction. The rest is excellent.
