### COMMENTS TO AUTHORS

Well written, comprehensive overview that clearly fits the aims of the Journal. Major concern: Please clarify the reference 105 and its use from p. 16 to p. 24! Something must be wrong there and the reference does not exist in your list. Minor concerns: - Please edit the text and add several spaces when necessary. For example, p. 3, Introduction, 3rd row after the first sentence; end of first paragraph “ ... healthy subjects [6], contributed ...”; page 4, 1st paragraph, “(anodal tDCS) generates ...” and many others on most pages. - Please give full wording before using an abbreviation in text. See p. 9, 4th paragraph dorsolateral prefrontal cortex (DLPFC) - Delete the dot on p. 18, 3rd row. Delete the s p. 18, 7th row (subjects). Should this be “and” on p. 18, last paragraph, 2nd row?
