## ESPS PEER-REVIEW REPORT

**Name of journal:** World Journal of Psychiatry

**ESPS manuscript NO:** 15669

**Title:** Olfactory function in psychotic disorders: Insights from neuroimaging studies

**Reviewer's code:** 00503432

**Reviewer's country:** Iran

**Science editor:** Fang-Fang Ji

**Date sent for review:** 2014-12-04 10:50

**Date reviewed:** 2014-12-23 15:53

### COMMENTS TO AUTHORS

There is an educational and interesting review on neuroimaging findings of olfactory system in psychiatric disorders. It is well written but it would be more comprehensive if they add few figures to that. In addition, as known, there is lower activation in volume and intensity in aged adults compared with activated in young adults, which it should be considered throughout the manuscript. Jianli Wang, Paul J. Eslinger, Michael B. Smith, and Qing X. Yang. Functional Magnetic Resonance Imaging Study of Human Olfaction and Normal Aging. Journal of Gerontology: MEDICAL SCIENCES. 2005, Vol. 60A, No. 4, 510-514.
