<input type="checkbox"/> Grade D: Fair	<input type="checkbox"/> Grade C: A great deal of language polishing	<input type="checkbox"/> Plagiarism	<input type="checkbox"/> Rejection
<input type="checkbox"/> Grade E: Poor		<input checked="" type="checkbox"/> No	<input checked="" type="checkbox"/> Minor revision
	<input type="checkbox"/> Grade D: Rejected	BPG Search:	<input type="checkbox"/> Major revision
		<input type="checkbox"/> The same title	
		<input type="checkbox"/> Duplicate publication	
		<input type="checkbox"/> Plagiarism	
		<input checked="" type="checkbox"/> No	

COMMENTS TO AUTHORS

The manuscript reports a sistematic review of clinical researches in pathological internet use. The review is estensive and complete and it could represent an interesting contribute to the actual scientific background. Following my suggestions: -Revise the manuscript to a native English speaker; -Please try to consider the efficacy of different treatments on the base of the specific symptoms revealed in the clinical study as reported in Tonioni et al., 2012; 2014.
