COMMENTS TO AUTHORS

Reviewer's Code: 00068107

1. The title is accurately reflects the contents of the review.
2. The abstract is well organized.
3. The discussion is well organized, and the systematic theoretical analyses and valuable conclusions are provided.
4. The references are appropriate, relevant, and updated.
5. The figure reflect the major findings of the review.

COMMENTS TO AUTHORS

This manuscript reviews the role of the astrocytic glutamate transporter in alcohol use disorder. The manuscript gives a detail account of the structure and function of the glutamate receptor and its role in alcohol related disorder. In addition, the manuscript provides useful elements for the applicability of new therapeutic approaches. Minor: It would be probably more appropriate to replace Discussion with Conclusions.
