#### **SPECIFIC COMMENTS TO AUTHORS**

This is a very well written review on Combined Liver-Kidney transplants in pediatric population. The main message is not to delay surgical procedure when the diagnosis is clear, do not wait until the child gets too sick to undergo the procedure. Select the patients carefully. Despite all the challenges, it is a wonderful operation with good outcomes. I have written my comments on the manuscript text in boxes. Few corrections should be made before publication. Thank you. Kind Regards, Sanem Cimen
