SPECIFIC COMMENTS TO AUTHORS

Dear authors Thank you for submitting your paper to the World Journal of Transplantation, it is certainly well-written paper. I have few comments about the paper, I wonder if you can add few details about the IV sedation (type and dosage) that you used in each group. Did you used anxiolytic medication? and if there is a discussion with the patients about the anesthetic technique and the plan to relieve they concern and anxiety? As you know, talking to patients and establishing an effective line of communication and rapport is great way to help patients to understand the procedure and relieve anxiety and apprehension.
