		<input checked="" type="checkbox"/> No	

### COMMENTS TO AUTHORS

Title accurately reflects the major topic and contents of the study. Discussion is well organized, and whether systematic theoretical analyses and valuable conclusions are provided. The references are appropriate and relevant. Tables and/or figures reflect the major findings of the study, and they are appropriately presented. The subject matter of research problem is highly appreciable. It will surely make a contribution to the relevant field of research. The presentation of thoughts in the paper is notable. I would like to recommend this paper to publish with no significant modification.
