COMMENTS TO AUTHORS

It has been quite for a while since last extensive reviews were published regarding "Primary glomerular diseases in the elderly". It's certainly the time to have an updated review in the filed regardless of the novelty. The manuscript provided good overview of the disease with decent literature coverage and most of literature are updated. I would recommend for publication in this journal. However, there are two relevant work missing and the authors shall cite. 1. Christine K. Abrass Book Chapter 10: Glomerular Disease in the Elderly <https://www.asn-online.org/education/distancelearning/curricula/geriatrics/Chapter10.pdf> 2.
