

## ESPS PEER-REVIEW REPORT

**Name of journal:** World Journal of Nephrology

**ESPS manuscript NO:** 24818

**Title:** Constitutive renal Rel/nuclear factor- $\kappa$ B expression in Lewis polycystic kidney disease rats

**Reviewer's code:** 00004208

**Reviewer's country:** Italy

**Science editor:** Fang-Fang Ji

**Date sent for review:** 2016-02-14 15:19

**Date reviewed:** 2016-02-18 04:54

## COMMENTS TO AUTHORS

The psper is interesting and well written. The methods are sound and the conclusions are consistent with the results

## COMMENTS TO AUTHORS

1. In this study, the author demonstrated a series of in vitro results of signaling related to the expression and pattern of Rel/nuclear factor (NF)- $\kappa$ B proteins in renal tissue in polycystic kidney disease (PKD). 2. Some of the signaling expression seem not strong enough to interpreted the fully correlation of the molecular pathology. However, they also demonstrate some preliminary scientific characteristic of temporal expression and pattern of Rel/nuclear factor (NF)- $\kappa$ B proteins in renal tissue in polycystic kidney disease (PKD), and may accept for publication.
