### COMMENTS TO AUTHORS

1. the reference 70 is missing in the text, please add it. 2. in the figure 1, a stop code in exon 5 is incorrect, which should be in the exon 6. in addition to this stop code, other two stop code should be also indicated in the figure which locate in the intron 2 and intron 4, respectively, and this should be with a rapid introduction for the different HLA-G isoforms ecoded with alternative spliced HLA-G mRNA in the text.
