

ANSWERING REVIEWERS

August 27, 2012

Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: WJCC_SJ Hyun_revised manuscript_text.doc).

Title: Spinal Pedicle Subtraction Osteotomy for Fixed Sagittal Imbalance Patients

Author: Seung-Jae Hyun, Yongjung J. Kim, Seung-Chul Rhim

Name of Journal: *World Journal of Clinical Cases*

ESPS Manuscript NO: 4168

The manuscript has been improved according to the suggestions of reviewers:

1 Format has been updated

2 Revision has been made according to the suggestions of the reviewer

(1) This is a very well written literature review on PSO which summarizes surgical technique, surgical outcomes, tips, and complications. I would only ask the authors to revise the following sentence in page 7: "The PSO through previous fusion has advantage is also indicated for patients..."

-> Thank you for your kind comments. We've revised the manuscript accordingly.

3 References and typesetting were corrected

Thank you again for publishing our manuscript in the *World Journal of Clinical Cases*

Sincerely yours,

Seung-Jae Hyun, M.D., Ph.D.
