Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: 72500-Review.doc).

Title: Severe gastric insufflation and consequent atelectasis caused by gas leakage using AIR-Q laryngeal mask airway: A case report

Author: Yue Zhao, De-Wei Li, Ping Li, Gao-Feng Zhao, Xiang-yu Li

Name of Journal: *World Journal of Clinical Cases*

ESPS Manuscript NO: 72500

The manuscript has been improved according to the suggestions of the reviewers.

1 The format has been updated.

2 Revisions have been made according to the suggestions of the reviewers.

Provided below are my answers to the suggestions of the science editor regarding the manuscript.

(1) The chief complaint subsection in the case report should be rewritten.

Answer: According to your suggestion, we have revised the “chief complaint” subsection and deleted descriptions regarding the history of the present illness from this section.

(2) In the abstract section, the purpose of this case study should be stated in one sentence.

Answer: Accordingly, we have revised the Abstract to highlight the purpose of this case study.

Provided below are my answers to the comments of the company editor-in-chief.

(1) Before its final acceptance, the author(s) must provide the Signed Consent for Treatment Form(s) or Document(s).

Answer: Accordingly, we have obtained written informed consent from the patient for the publication of this report and any accompanying images; additionally, we have uploaded the primary version (PDF) of the Informed Consent Form.

(2) Before final acceptance, uniform presentation should be used for figures showing the same or similar contents.

Answer: Accordingly, we have revised the manuscript to ensure a uniform presentation of figures illustrating the same content.

Thank you again for publishing our manuscript in the *World Journal of Clinical Cases*

Sincerely yours,

Yue Zhao, De-Wei Li, Ping Li, Gao-Feng Zhao, Xiang-yu Li
