

Dear Editor,

Thank you very much for your decision letter and advice on our manuscript (Manuscript #70076) entitled “Pediatric living donor liver transplantation using liver allograft after ex vivo backtable resection of hemangioma”. We also thank the reviewers for the constructive comments and suggestions. We have revised the manuscript accordingly, and all amendments are indicated by red font in the revised manuscript. In addition, our point-by-point responses to the comments are listed below this letter.

This revised manuscript has been edited and proofread by Medjaden Inc..

We hope that our revised manuscript is now acceptable for publication in your journal and look forward to hearing from you soon.

With best wishes,

Yours sincerely,

Xuan Chen

Before final acceptance, uniform presentation should be used for figures showing the same or similar contents; for example, “Figure 1 Pathological changes of atrophic gastritis after treatment. A: ...; B: ...; C: ...; D: ...; E: ...; F: ...; G: ...”. Please provide decomposable Figures (in which all components are movable and editable), organize them into a single PowerPoint file.

Response: 1. Uniform presentation has been used for figures showing the same or similar contents. 2. We have provided the original figure documents and arranged the

figures using PowerPoint to ensure that all the graphs, arrows and text portions can be reprocessed.
