

Dear Editor

We appreciate the opportunity to provide a revised version of the manuscript entitled "Analysis of 20 patients with laparoscopic extended right colectomy" (World Journal of Clinical Cases Manuscript NO.: 69015).

The revised manuscript has been modified to reflect the very helpful comments provided by the reviewer. Our responses are outlined in this cover letter (blue).

Best wishes,

Specific Comments to Authors:

Good paper. Provide data regarding....how many patients were young that is less than 40 years. Also put one Reference in Discussion from India regarding Surgery in Young Colorectal Carcinoma (Saluja SS, et al, Indian Journal of Cancer 2014)

Answer to the reviewer 1:

Thank you very much for your hard work. I think every opinion you put forward is very good. The median age was 63.5 years (range, 26–75 years), and only one is less than 40 years old. And I also think this reference is very valuable and suitable for our article, so we think it is necessary to cite this article to enhance the value of this research. (20 references)

Thank you again for your comments.

Answer to editors

Thank you very much for the once-in-a-lifetime opportunity. For the language problem, I asked AJE company to polish it again, hoping to make the language more fluent. I have uploaded all the files, please check.

Thank you again for your hard work.

The above is my reply to the reviewers. Thank you very much for taking the time to review my manuscript in your busy schedule, which is of great help to me. Thank the editor for giving me the opportunity to revise the manuscript. I have tried my best to revise the manuscript. I look forward to the approval of the editor and

reviewer. I wish you good health and happiness.

Thank you for your consideration of our manuscript.
