

Dear editor:

I'm very glad to receive your reply. Thank you very much for providing very meaningful advises to our manuscript. We have resubmitted the revised version to World Journal of Clinical Cases .

Response to reviewer 1 :

Thank you for your suggestion. We have revised the manuscript based on your comments. Our answer to the questions you marked in the article is: first, the patient was admitted to our cardiology department because of dizziness, and was referred to our department for treatment after a routine chest CT revealed an anterior mediastinal space-occupying lesion; second, regarding the question about "risk" in the article, the classification is derived from the NCCN guidelines; and finally Thank you for your suggestions on our article.
