

### **Answering Reviewers**

Thank you very much for your comments on this study. We have revised the figures and tables according to requirements, and the figures in the text have been prepared and arranged using PowerPoint. The original pictures are added “copyright © Author 2023” at the bottom right of the PowerPoint (PPT) picture. The tables are standard three-row tables, and the contents of each cell in the table meet the editing criteria. The figures and tables will be uploaded in the attachment.
