

Answering Reviewers

1Q: There are still some spelling and grammatical errors, such as Background, or “.... achieved his goals by crying and shouting ...”

1A: I have corrected the spelling and grammatical errors you mentioned. If there are still missing parts, please help point out and correct them. I would be grateful.

2Q: There are some unnecessary abbreviations in the text, such as: “Since age 6 mo”, or “..... each lasting about 2 min”.

2A: I don't want to use meaningless abbreviations such as "mo" and "min", but I don't know if it's a different version or other reasons. My revised uploaded version is still an abbreviation, and I'm also confused about it. Please help me modify it directly. I will be very grateful.

3Q: In the Abstract, it was mentioned that the child was 5 years old, while in the text the age of the child at the presentation was 3 years old.

3A: I reorganized my language expression in the text and corrected it as follows “She was 3 years old at the time of her first visit and presented on 16 September 2020 due to language delay. She is 5 years old now”.

4Q: The ethical issues and permission for reporting the patient's information are missing.

4A: I have uploaded the ethical issues and permission for reporting the patient's information on the system, please check it again.

5Q: The discussion is too short and the review of the similar studies is missing.

5A: I have tried my best to increase the relevant discussion in the discussion section.
