

## **ASSOCIATE EDITOR COMMENTS**

1. Regarding writing the "CASE PRESENTATION" section, each case should be written separately with their subheading (Chief Complaints, present illness, History of past illness,..etc.

**Response :** We tried to modify the manuscript according to your comment, but it was inevitable to maintain the same format as the previously submitted manuscript because it was not possible to upload separating each case for "CASE PRESENTATION" section on the journal website. Instead, we received and modified English proofreading again to improve language quality.
