Reviewer 1

Specific comments to authors

Figure should be very clear. Current data is not understandable.

Reply: Detailed image explanations are added below each legend, marked in red font

Reviewer 2

Specific comments to authors

The authors reported a case with a title "Focal lymphoblastic transformation of chronic Myeloge-nous leukemia develops to secondary acute myeloid transformation into erythroid leukemia: A rare case report and review". The manuscript is well-written with adequate reference to the current medical literature in the field. The content of the text is satisfactory enough and the figures are informative.
