

Reviewer #1:

Scientific Quality: Grade C (Good)

Language Quality: Grade B (Minor language polishing)

Conclusion: Minor revision

Specific Comments to Authors: Dear author, Some comments for your manuscript: Select keywords from the MeSH. Please explain more about methods in the abstract. Please explain Reliability and Validity of tool that used. Please explain about ethical considerations. Discuss limitations of the study. The source of funding for the study, acknowledgments and conflict of interests should be written at the end of the manuscript. Secondary references have been used a lot. Be sure to use primary references for basic concepts Make sure the referencing structure conforms to the convention of the journal.

Dear reviewer, thank you very much for your questions. We have revised the keywords through the Mesh library and enriched the methods section of the abstract section. At the same time, we have also improved the reliability and validity of the scales used in the study, and added ethical review explanations. Finally, the limitations of the research, as well as the issues of fund support and conflicts of interest, were explained, and the reference grid was modified

Reviewer #2:

I have checked the documents for the manuscript and found that Answering reviewers is wrong, please refer to the attached example to supplement. It is recommended that IRB and informed consent provide Chinese version of the document, rather than English version. Please add text editable Tables 1-4 at the end of the article. Regarding the figures: Please provide the decomposable figure of figures, whose parts are all movable and editable, organize them into a PowerPoint file, and submit as "Manuscript No. -Figures.ppt" on the system, we need to edit the words in the figures. All submitted figures, including the text contained within the figures, must be editable. Please provide the text in your figure(s) in text boxes. Also, please add "Copyright © The Author(s) 2024" below the image. Figure file names should identify the figure and panel. e.g. "Figure 1 Pathological changes of atrophic gastritis after treatment. A: ...; B: ...; C: ...; D: ...; E: ...; F: ...; G: ..."

Dear editor, thank you very much for your valuable feedback. We have made modifications according to the email attachment format. Currently, we have uploaded the Chinese version of the ethics approval document. At the same time, we add text editable Tables 1-4 at the end of the article. Additionally, we adjust the images for easier editing.
