(1) answer to reviewer's (02840060) comments

: Thank you for good comments. Absolutely we evaluated the follow up study including colonoscopy to confirm the diagnosis, Crohn's disease limited to the appendix. So we added as below in MATERIALS. We marked with blue letters.

"The clinical information including age, gender, clinical data, and data about the surgical procedure for each case as well as [follow-up data including colonoscopic evaluation](#) was collected."
