

February 15, 2015

Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: 16376-review.doc).

Title: Paraspinous Hemolymphangioma Associated with Adolescent Scoliosis

Author: Ishaan Swarup, MD¹, Benjamin T. Bjerke-Kroll, MD, MS¹, Matthew E. Cunningham, MD, PhD²

Name of Journal: *World Journal of Clinical Cases*

ESPS Manuscript NO: 16376

The manuscript has been improved according to the suggestions of reviewers and editor:

- 1) Ethics approval, informed consent and conflict of interest disclaimers have been added.
- 2) Core tip has been added and provided as an audio file as well.
- 3) All in-text citations have been re-formatted as superscripts with brackets.
- 4) Comments have been added to the end of the article.
- 5) All references have been re-formatted and the PMID/DOI has been added for all possible references.
- 6) As per the first reviewer's suggestion, we changed the following (highlighted in text):
 - We modified the wording of lines 29-30
 - We have added the phrase "to our knowledge" to line 35
 - We changed the wording of line 83 to reflect that AIS was the suggested diagnosis at the patient's initial visit only. As additional information became available, this diagnosis appeared unlikely.

We greatly appreciate your reviews and comments. Thank you again for publishing our manuscript in the *World Journal of Clinical Cases*.

Sincerely,

Ishaan Swarup, MD
