Reviewer	Query	Reply	Comments
00503779	This is a well written review article on the topic of esthesioneuroblastoma.	Thanks	Thanks
00503705	Is PET scan of any usefulness in diagnosis and staging?	PET (Positron Emission Tomography) is not routinely recommended for staging evaluation but can be used as an adjunct to CT and MRI.	Mentioned in INVESTIGATIVE WORK UP Section
00503705	Is there a metanalysis and papers for ENB surgical resection more recently than 2001 and if so state it.	References 14, 19, 20	
00209021	The author should add information dealing with differences between and any relation with neuroblastoma taking into consideration the tumor markers, clinical presentation and treatment modalities	Added in the manuscript in the PATHOLOGY section	Mentioned in the text
00209021	Adding a paragraph describing the characteristics of ENB in pediatric age group makes the manuscript more comprehensive with addition of a few references related with the topic	A separate paragraph added "ENB IN CHILDREN"	Mentioned in the text
00209021	References must be uniform and suitable with the journal's style. Minor language polishing is necessary	Done	
Formatting	As mentioned in the edited manuscript	Done
