Dear Editors and Reviewers:

Thank you very much for your comments regarding our manuscript. We have carefully revised the manuscripts per your suggestion.

Reviewer #1: This is a correct case report with literature review; although rare, not much new information.

A: Thanks for your very kindly comments.

Reviewer #2: No major concerns, but I would suggest to correct some minor grammar mistakes and some mistyped words.

A: Thank you for your attention. We invite native Speaker of English to make a language polish once again.

Sincerely.
