

Dear Reviewer and Prof. Dennis A Bloomfield and Prof. Sandro Vento:

Thank you very much for your hard review work and support comments.

We have carefully checked the manuscript, and would like to re-submit it again. The response to your comments is listed below.

We hope that the updated manuscript is now acceptable for publication in your journal.

I look forward to hearing from you soon.

With best wishes,

Yours sincerely, Hui Lu M.D.

Medicine, ZheJiang University. Huilu@zju.edu.cn

Reply to Reviewer (02446379): The authors present a case of a 62-year-old female with a non-healing subungual growth in the nail bed of the right middle finger for two years which finally was diagnosed to be squamous cell carcinoma.

The case report is well written from a clinical standpoint, and does represent an interesting case with take home messages. I would recommend this case be considered for publication without any further revision.

**Thank you for your hard review and kind support.**
