Dear editor,

Thank you very much for your consideration of our manuscript (Manuscript number: 50535), " Unilateral congenital scrotal agenesis with ipsilateral cryptorchidism: A case report and review of literature ". We appreciate the reviewers' and editors' helpful comments and suggestions. Based on these feedbacks, we have revised the manuscript and feel it has been substantially strengthened.

Please find our detailed responses to the reviewers' comments below. We hope that the revised manuscript successfully addresses the reviewers' concerns and is acceptable for publication in *World Journal of Clinical Cases*. If there are any questions or problems with our submission, please feel free to contact me. Thank you again for considering this manuscript.

Sincerely,

Jin-Huan Wei

Response to the reviewers' comments

Reviewers' comments:

SPECIFIC COMMENTS TO AUTHORS

The research is well conducted, the rare clinical case well studied and well described.

The therapeutic options could also be other but the 4-month result confirms the goodness of the choice. Among the key words could be added 'cryptorchidism' for the validity of the choices. The case is interesting and its publication is recommended.

Our reply:

Thank you for this comment! We have added the key words of 'cryptorchidism' into the revised manuscript.
