Our policy for the Case Report manuscript requires the title to include the disease name, the number of cases, and the phrase "literature review". In addition, the description of the paper as a literature review must be supported by the manuscript's content. Please update the reference list and add references with accompanying textual content that will strengthen the manuscript as a literature review of the appropriate and up-to-date case-related information. Please note that if authors only add the words "literature review" to the title, but do not revise the textual content of the manuscript to provide a literature review, the manuscript will be rejected.

The comment was considered and the title and manuscript as well were edited accordingly. The introduction and discussion sections were revised and edited and the references were updated.
