

Dear Editor,

We thank you for providing us the opportunity to re-submit a revised version of our manuscript entitled "**Successful treatment of plasma exchange-refractory thrombotic thrombocytopenic purpura with rituximab: A case report and literature review**" by Jian Chen et al. for consideration for publication in the World Journal of Clinical Cases.

Reply to editorial comments:

1. Please upload the approved grant application form(s) or funding agency copy of any approval document(s);

Answer: We have now upload the approved funding agency copies of some approval documents (highlighted in yellow) .

2. Please provide the original figure documents. Please prepare and arrange the figures using PowerPoint to ensure that all graphs or arrows or text portions can be reprocessed by the editor.

Answer: We have now provided the original picture and re-edited all graphs .

Reviewer's comment #1 ID:02908908

"A very interesting case of the plasma exchange-refractory thrombotic thrombocytopenic purpura with rituximab. The case is rare. The manuscript is very well written. Only some minor language editing is required."

Answer: We have once found professional editors to polish the article. A language editing certificate issued by AJE was provided.

Reviewer's comment #2 ID: 03645108

"Figure of the patient's laboratory examination and temperature is interesting and useful, but images are small. Please update the images. Overall, this manuscript is very well written. I have no other specific comments."

Answer: We have updated and processed the pictures to ensure that the pictures are clear .

Again, thank you for giving us the opportunity to strengthen our manuscript with your valuable comments and queries. We have worked hard to incorporate your feedback and hope that these revisions persuade you to accept our submission.

Sincerely,

Jian Chen
